# We have been developing software since 2016

## 2016-2019

The founders of Creatix have been working together on different IT projects as freelancers, developing both their technical and business skills.

## 2019-2021

Creatix Technologies was founded as a custom software development company, providing full-cycle custom software development services and blockchain solutions for small & medium businesses and enterprises.

## 2022-present

The core focus of provided services became blockchain, Web 3, and NFT projects, together with web and mobile development.

# Our Services

Blockchain  
Development

Custom Software  
Development

Web  
Development and  
Design

Mobile App  
Development

DevOps  
Engineering

Software  
outsourcing and  
outstaffing

UI/UX Design

Quality Assurance

# Some of the solutions we can help you with

- 🌀 Blockchain payment systems
- 🌀 Cryptocurrency solutions
- 🌀 Smart contracts software
- 🌀 NFT marketplaces
- 🌀 Supply chain management and logistics software
- 🌀 Electronic health records (EHRs) software
- 🌀 Digital banking solutions
- 🌀 Asset management software
- 🌀 Asset tokenization platforms
- 🌀 Gaming solutions

- 🌀 Property management software
- 🌀 Inventory management software
- 🌀 Trade finance platforms
- 🌀 CRM software
- 🌀 ERP software
- 🌀 Accounting software
- 🌀 Business productivity software
- 🌀 E-learning platforms
- 🌀 Warehouse management software
- 🌀 Order management and delivery software

# Professional Team

Creatix is a team 40+ individuals with the following professions:

Web Developers

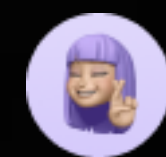

Blockchain Developers

Mobile Developers

QA Specialists

UI/UX Designers

Project Managers

Support Engineers

DevOps Engineers

*We work with Agile, Scrum, Kanban, or Waterfall methodologies, whichever fits best to your business and project requirements.*

# Technologies we are experts in

## Back-end

Node.js (Express, Fastify, Nest.js), PHP, Laravel, Symfony, Python (Django), C, C++, C#, Java

## Blockchain

Solidity, Ethers.js, Web3.js, Solc.js, Foundry, Hardhat, Truffle, Alchemy, Infura, ERC Token standards, ECDSA, Biconomy Meta Transactions, SIWE, OpenZeppelin, Geth

## Front-end

JavaScript, TypeScript, React.js, Next.js, Vue.js, Angular, HTML5, CSS3, LESS, SASS, Bootstrap, Tailwind CSS

## Database

MongoDB, PostgreSQL, MSSQL, MySQL, SQLite, Elasticsearch, Cassandra, Dynamo, Event-Store, Redis

## Cloud and DevOps

AWS (Lambda, API Gateway, DynamoDB, S3, SES, SNS, SQS), Jenkins, Kubernetes, Google Cloud, Docker, Azure, Docker, Nginx, Apache, CI/CD

## QA

Webdriver.IO, Selenium, Cypress, Appium, Jest-Puppeteer, Playwright, Android Studio, Swagger, Postman

## Mobile

React Native, Flutter, Dart

## Others

Git, Firebase, OOP, Design Patterns, Microservice Architecture

# Our Process

# Engagement models

## TIME AND MATERIAL MODEL

An hourly- or monthly-based agile model, which provides complete control over the money and progress of your software development lifecycle (SDLC). You pay only for time and resources spent on the project and regularly get reports from software engineers or PMs.

## FIXED PRICE MODEL

We review your technical documentation or a scope of work and propose an estimate of price and time. As the price is fixed it will not change during the software development process. We divide the project into smaller milestones or stages, moving systematically towards the ultimate release of the project.

## OUTSTAFFING (WHITE LABELING)

Hire outstaffed IT team or individual developers as an additional IT support. Besides software developers, we can also provide PMs, UI/UX designers, QA engineers, or other professionals with White label partnership model. It requires minimum efforts and time from you.

# Reasons to choose Creatix Technologies

- ✿ FREE IT consulting
- ✿ Affordable MVP
- ✿ Quality as number one priority
- ✿ Always on-time delivery
- ✿ You are the owner of the code
- ✦ CTO's direct management
- ✿ Developers of different seniorities
- ✿ Communication in English
- ✿ Proven testimonials
- ✿ Regular reports
- ⚠ Flexible options to pay
- ✦ Close to reality estimates
- ✿ Possibility to scale up the team
- ✦ Maintenance and support

# Relationship With Clients

*Mentioned as fair and trustful software vendor by our partners*

Creatix.tech has been meeting all of the weekly sprints and key milestones. Creatix.tech has delivered on time and is receptive and accommodating to any requests that arise. The client also likes the team's easy-to-work-with and communicative approach.

Mark Thompson

*CEO & Founder, BuilderPad*

# Case study

## Food Delivery Mobile App

The app is for connecting restaurants, couriers, and clients. This is a delivery platform to make the process smoother and faster.

Client Name: FUDY

Country: Estonia

Team composition: 15

Duration: 1 year

[Click here to watch the video case study](#)

# Case study

## Construction Management Platform

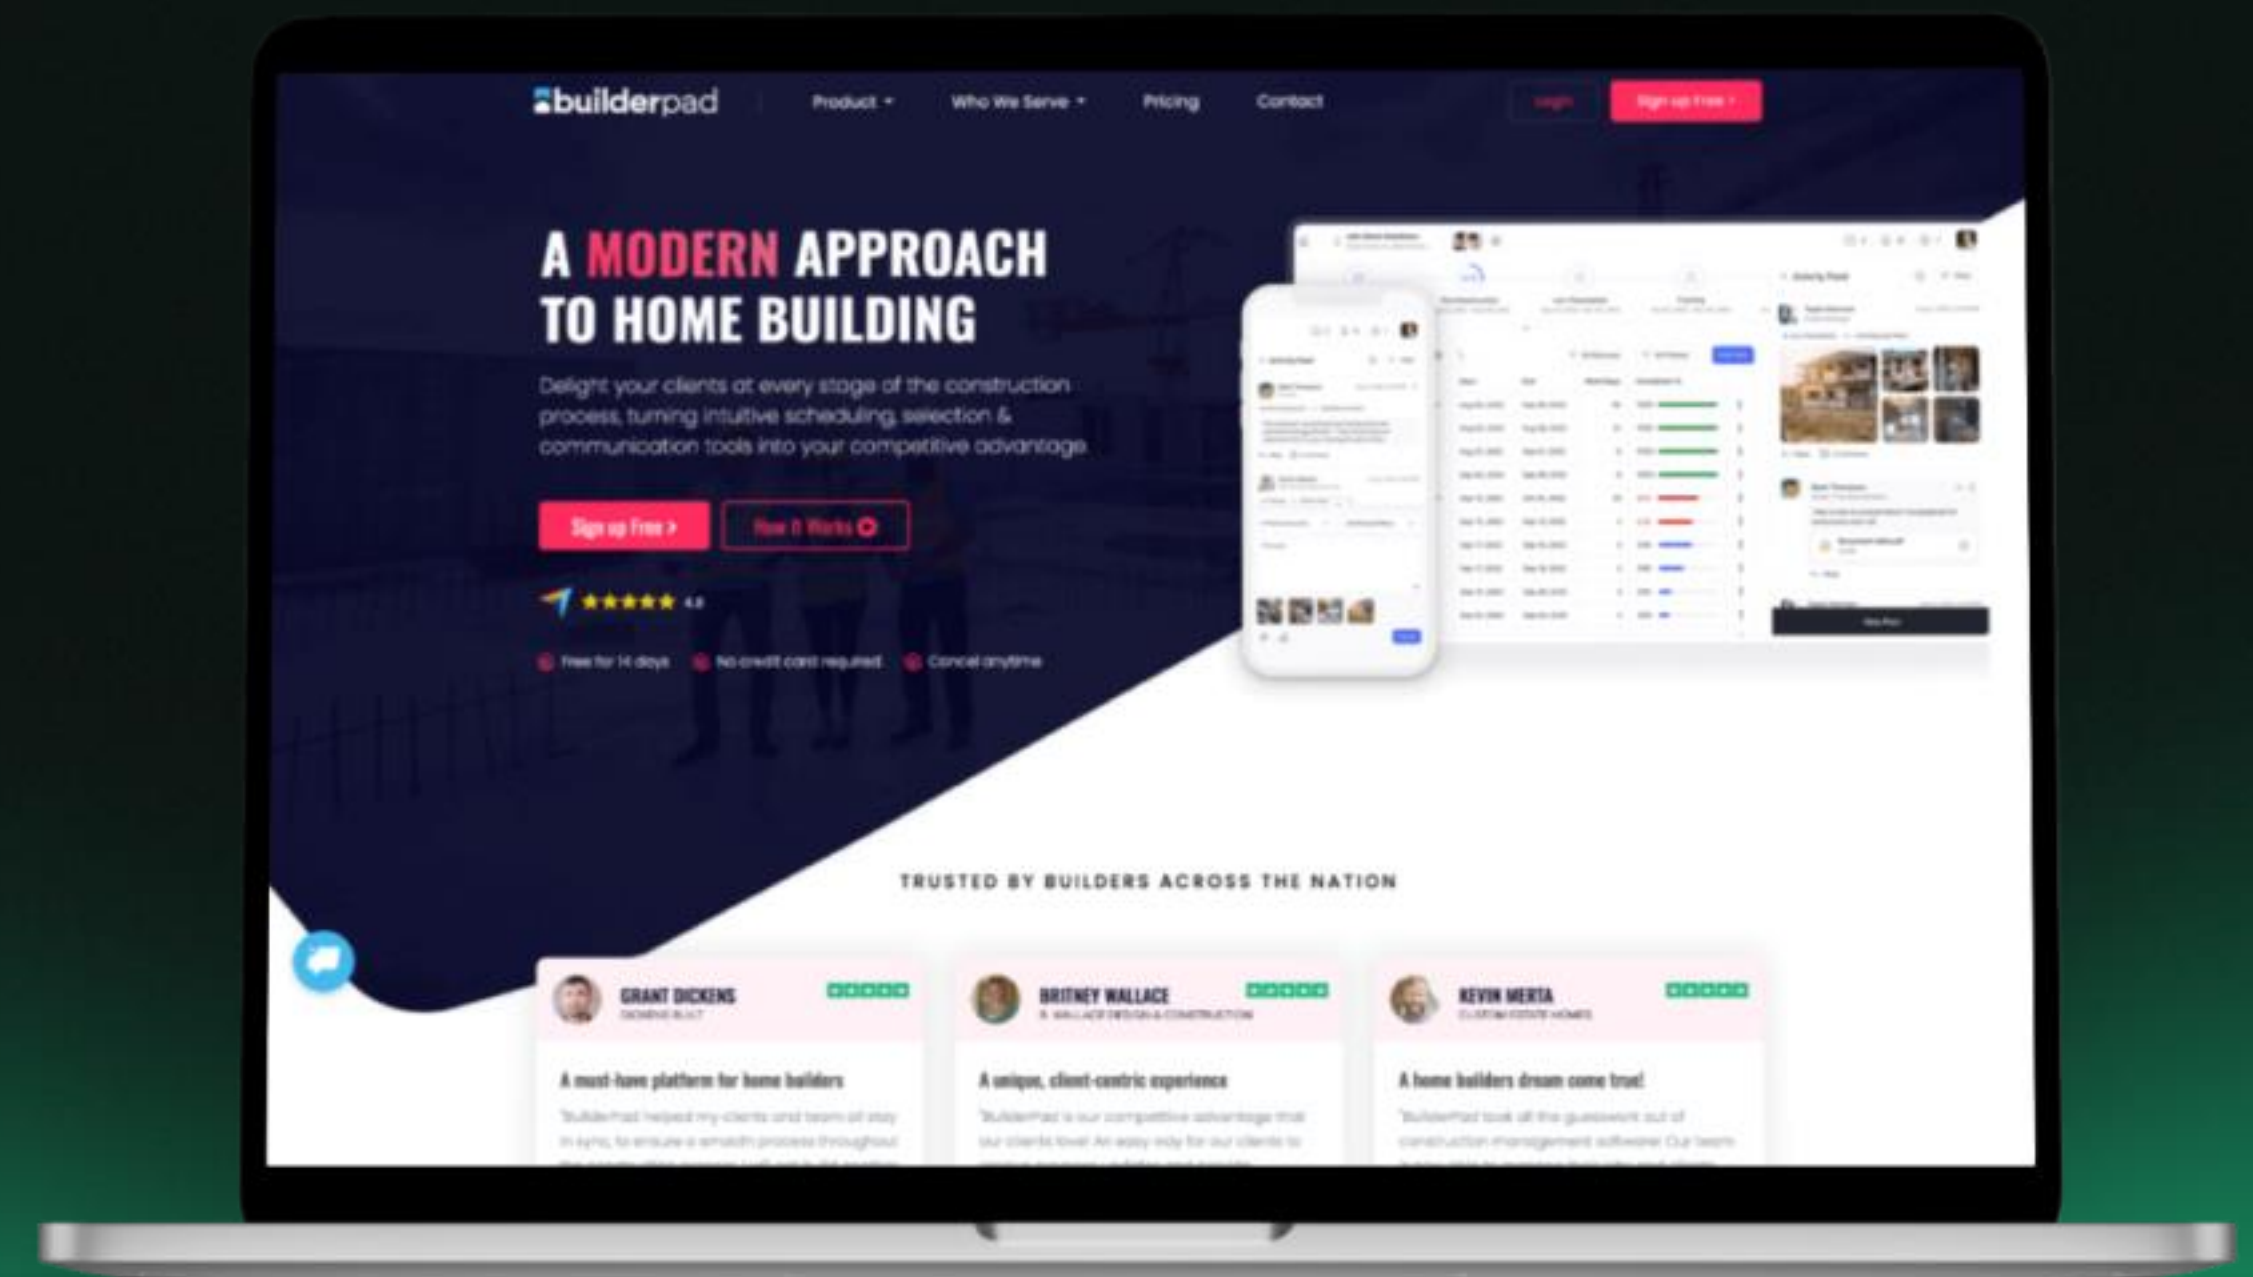

All-in-one construction project management platform, tailored specifically to overcome the everyday challenges faced by home builders. The platform helps to manage each phase of construction with confidence, post progress updates and start discussions with the team and clients.

Client name: BuilderPad

Country: USA

Team composition: 8

Duration: 12+ months (ongoing)

# Case study

## Healthcare Web Platform

This is a custom healthcare web platform for an addiction treatment organization. This is platform to connect patients and clinicians through which the patients can schedule an appointment with their favorite doctors and send prescriptions to pharmacies.

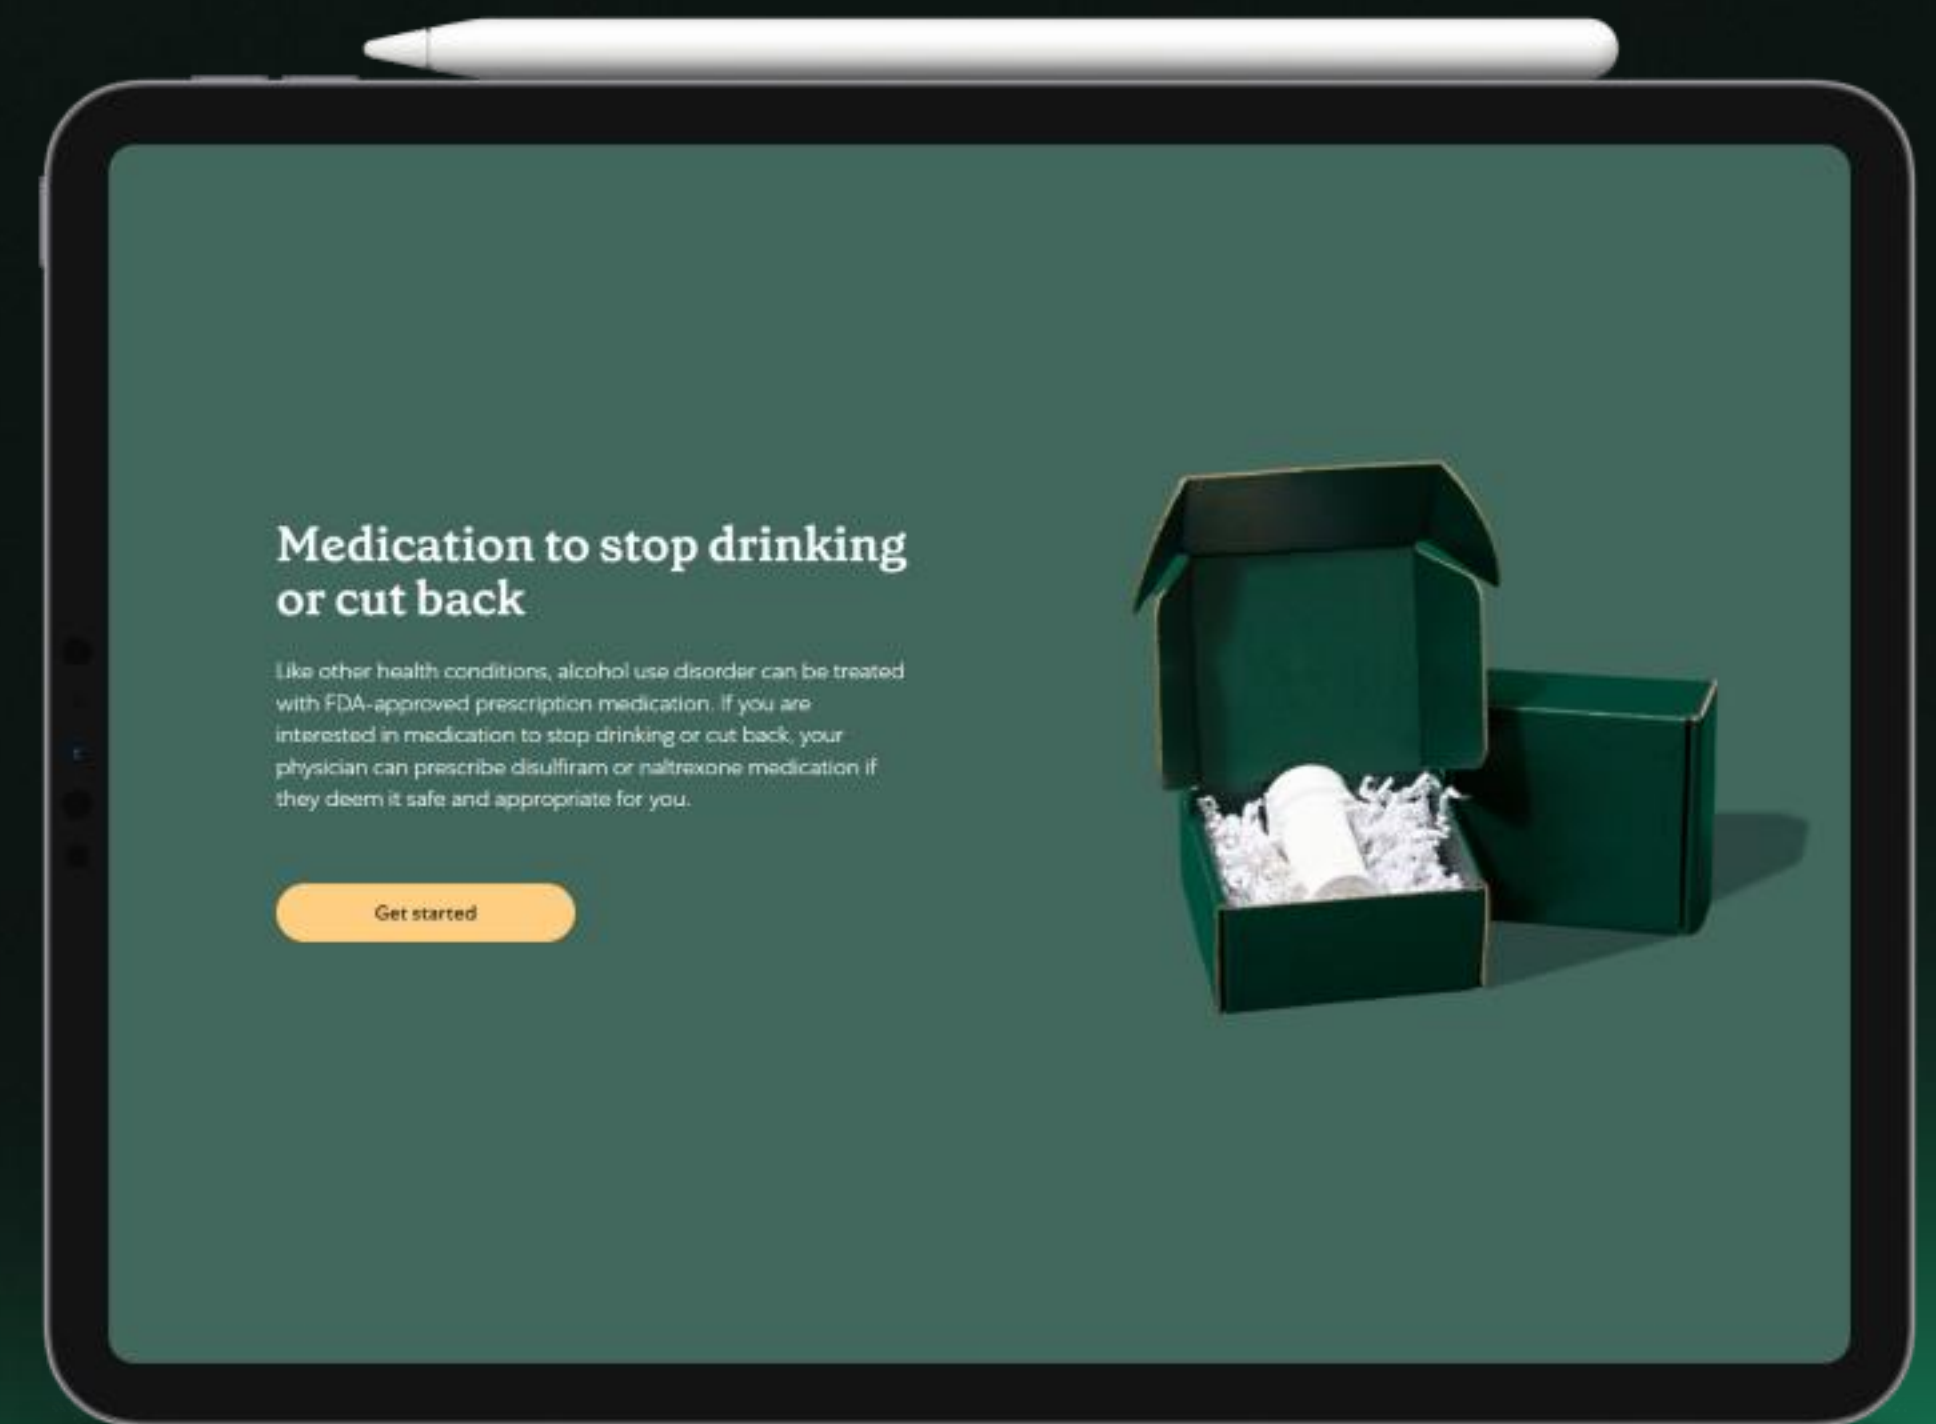

Client name: Monument

Country: USA

Team composition: 12

Duration: 1 year
