

Let's go global together!

Founded back in 2021 by merging Skywell Software and X1 Group, the Globaldev Group keeps expanding to grow into a **software development partner for tech companies** around the world.

Our values

Client commitment

Our relentless dedication to clients stems from our integral belief that when you succeed, we succeed. You will see our commitment in the transparency of our communications and processes, our dedication to meeting delivery timelines, the quality of our development services, and our efforts to fulfill your requests.

Process transparency

Honest communication is the foundation of our partnerships. Transparent communication ensures there are no surprises and that developers, clients, and stakeholders are on the same page. We openly discuss the project's progress, blockers, changes in delivery dates or feature sets, and other important KPIs.

Talent retention

Our talent is key to the success of our organization and our clients' projects. That's why we not only offer our specialists basic benefits but also regularly conduct salary reviews, provide opportunities for specialists to achieve their goals, and encourage them to share feedback. When our people prosper, we prosper.

Working with Globaldev means for you:

12+ years

in the IT market

Smart
onboarding

HR and account
management

Legal, financial,
and logistics
management

Team extension. What you get:

1

Transparency

We maintain an open and transparent hiring process to offer the right specialists, guarantee their professionalism and competencies.

2

Fast recruitment

Globaldev team strives to recruit specialists within a month. Our in-house sourcing and recruiting team, allow us to deliver results faster.

3

Cost efficiency

The offshore team extension model allows our clients to save an average of more than 50% on total development costs.

4

HR management and retention

HR managers watch over specialists' contributions and challenges and step in, when needed, to assist both staff and a client.

5

Scalability

We can fill in the tech gaps and scale your local team as you go - everything to introduce the missing expertise and hasten your product's time to market.

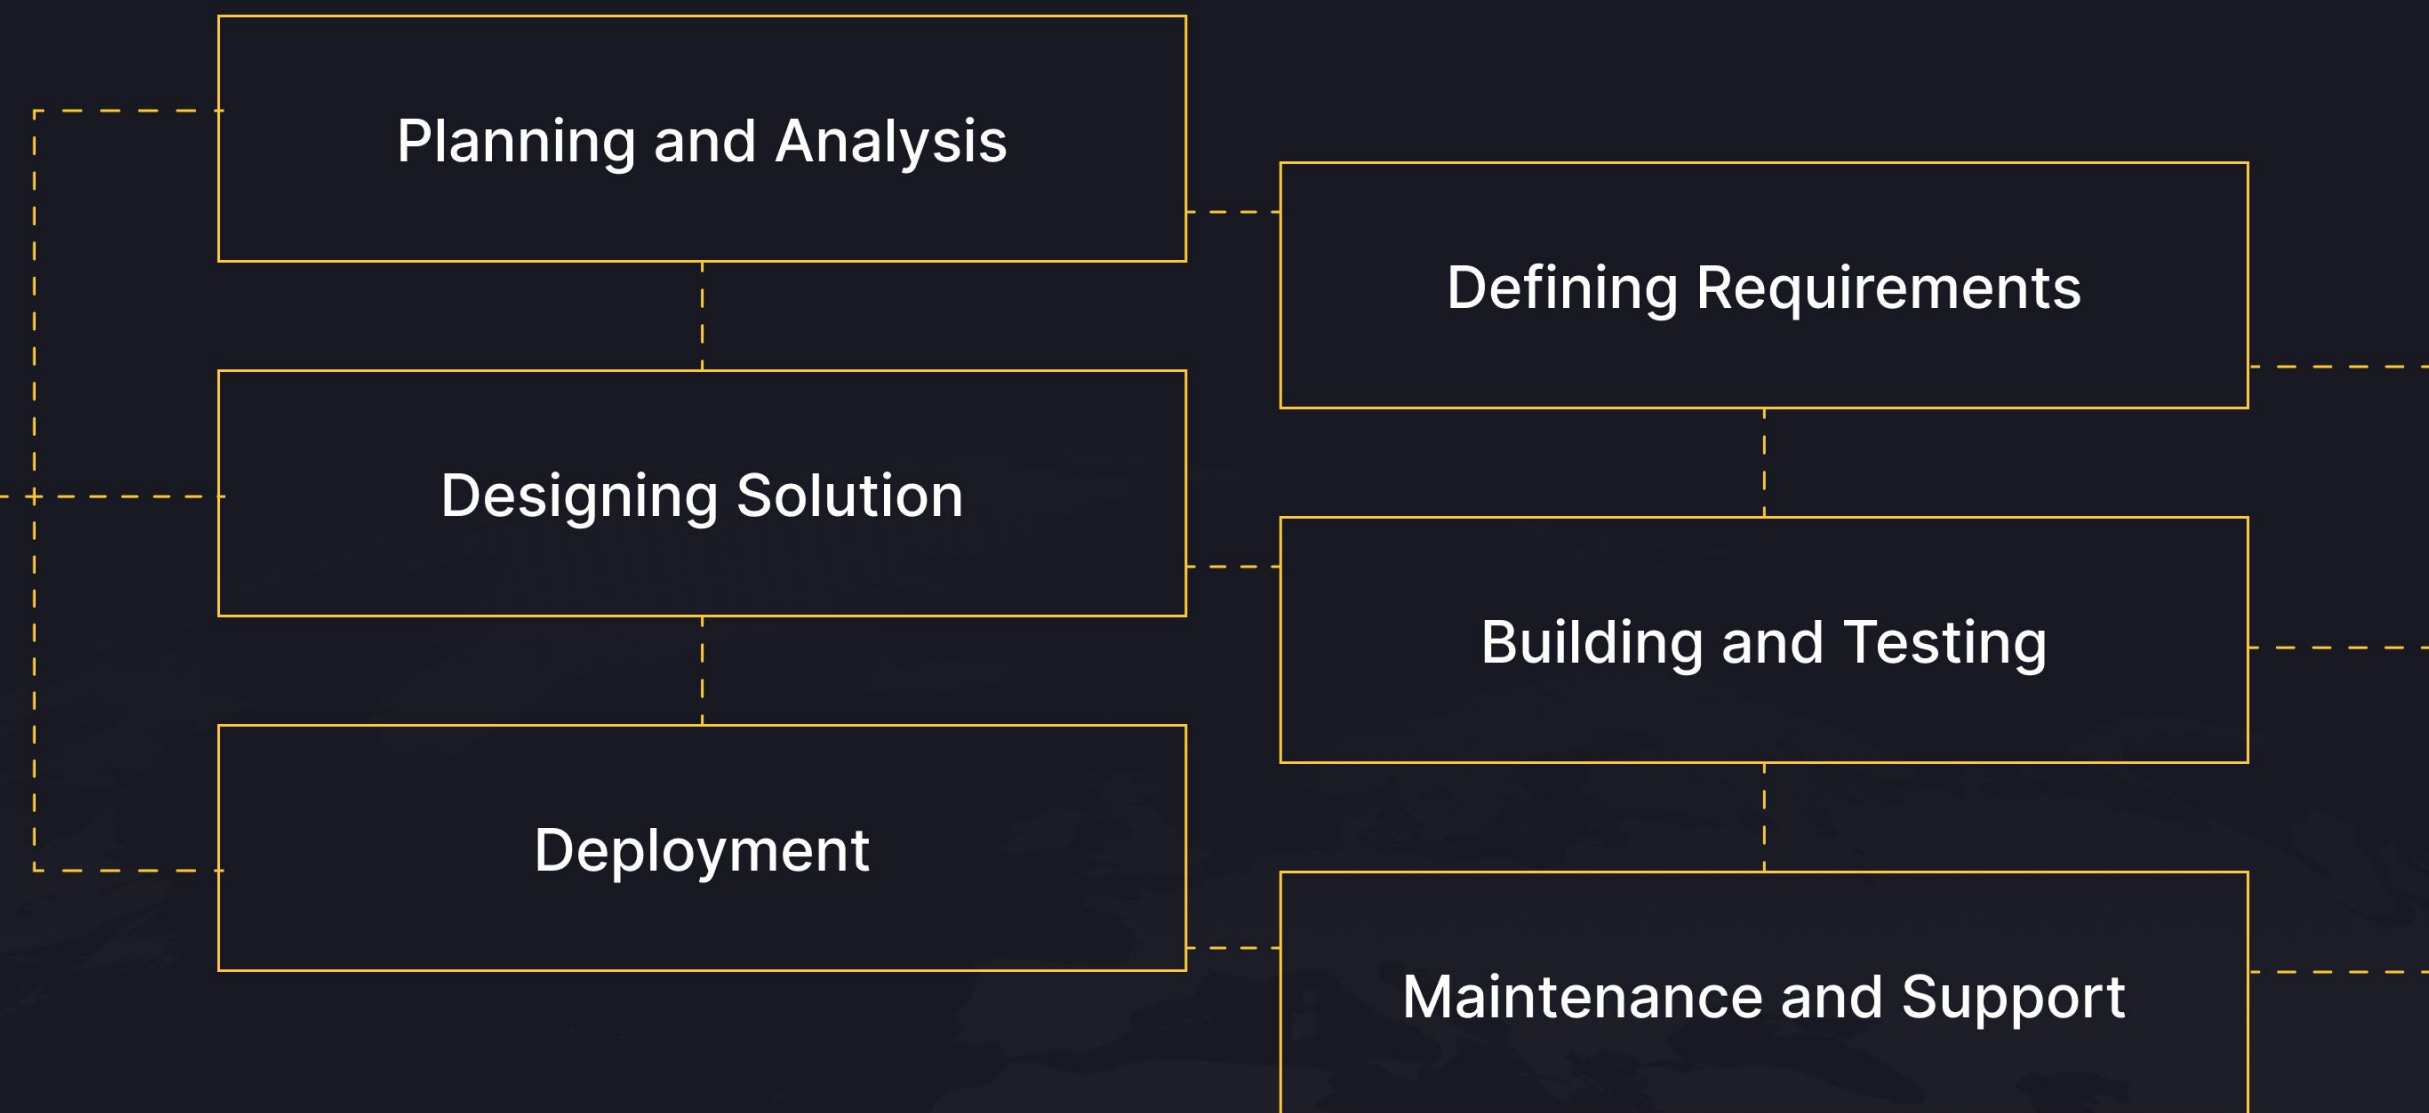

6

Trial period

Extending your team with Globaldev is risk-free. Every newcomer undergoes a trial period so you can scope out whether they're the right match.

Global Engineering: Collaboration framework

Global Engineering: End-to-end product development

Get your software designed from the ground-up
