core team members

# What we offer

---

## Idea

**Discovery**

**UI/UX**

## Development

**Dedicated team**

**Staff augmentation**

**Fix cost development**

## Support

**DevOps as Service**

**Infrastructure solutions**

# Discovery

We'll gather information about your future project and create a **clear plan for its development**, including:

Vision

Technical Specification

Design Prototype

Project Estimation

Delivery Plan

# UI/UX design

If you want to **impress your customer** from the first interaction and underline the personality of your brand, then this SvitSoftware offer fits you the best.

# Staff Augmentation

---

If you are planning to **expand** your software development team, but have limited resources, then staff augmentation might be the thing for you. We provide you with **high professionals** for reasonable rates.

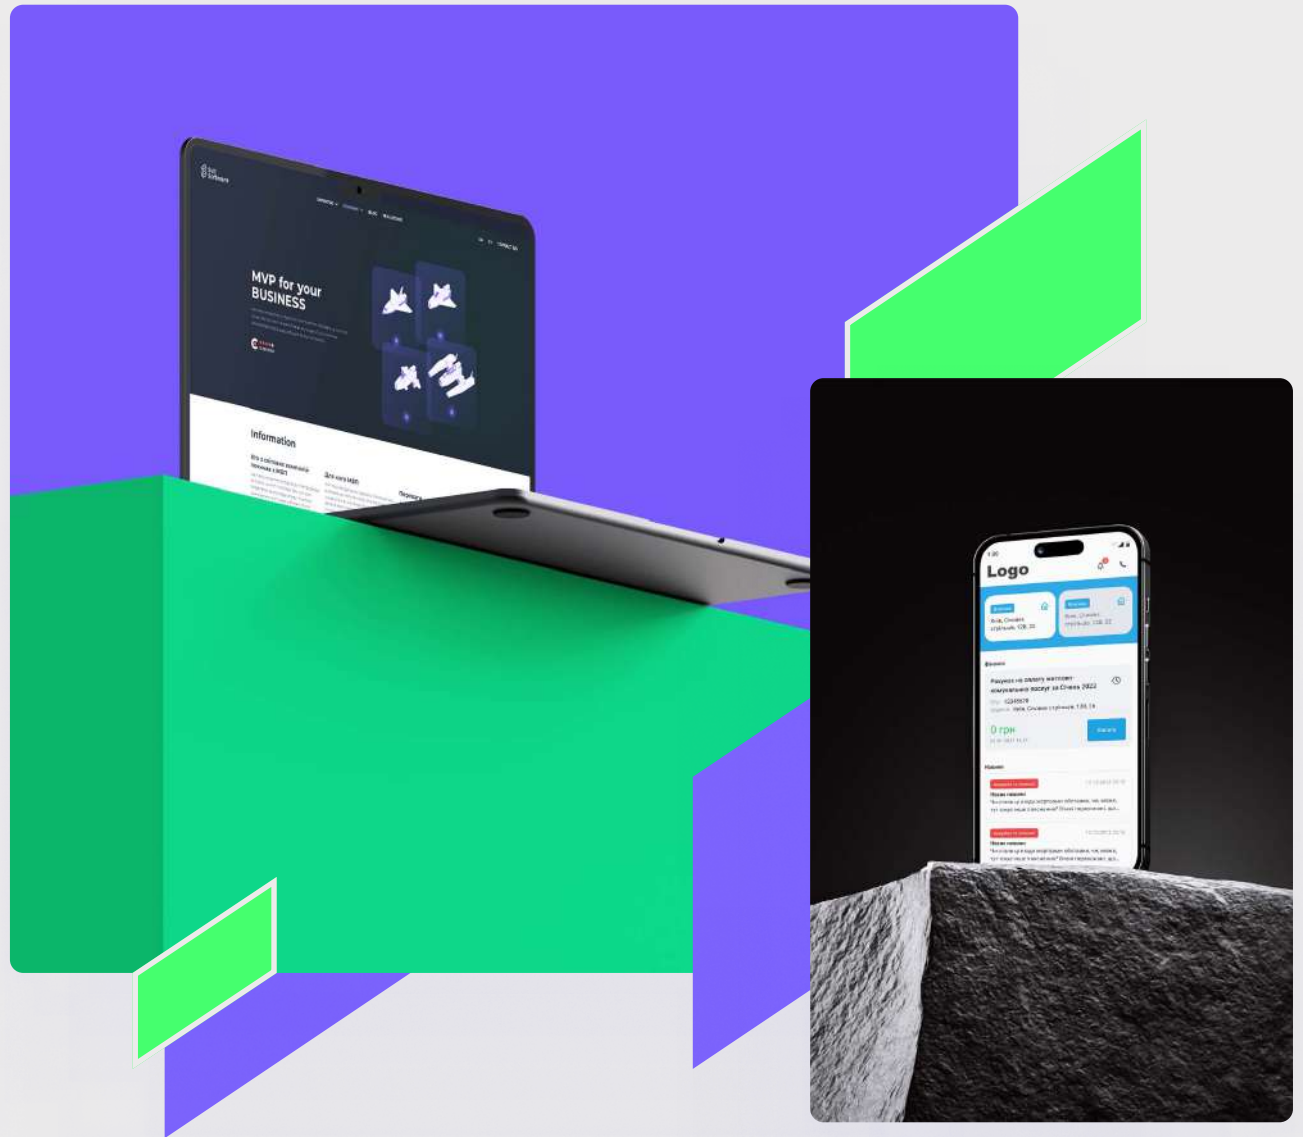

# Dedicated Team

We allocate a team of professionals for your project. You will **completely control** the management of the team we assemble for you.

# Fix-cost Web and Mobile Development

We create powerful custom **web solutions** and easy-to-use **mobile applications** for our customers.

# DevOps as a service

If you need DevOps but don't want to pay for the DevOps specialist in your staff, we can offer you a DevOps service when you **pay only for the time** that our DevOps specialist **spends on your tasks**.

# Cloud Solutions

Improve **efficiency**, reduce costs, and rebalance capital and operating expenses with SvitSoftware

Cloud Solutions:

Services support **Azure** **AWS** **GCE**

Cost Optimization

Move to the Cloud

# Happy clients
